

Always with you

Globalstar SPOT X

SPOT X is Globalstar's satellite monitoring and tracking device.

It provides 2-way satellite messaging that allows communication everywhere outside of standard telecommunications networks. Through the S.O.S. function it is possible to send an emergency SMS to a predefined number with the own coordinates to require help. SPOT X also provides a personal mobile number, so others can message you directly from their mobile phone or other SMS devices at any time.

It is equipped with the tracking function with the possibility to select the tracking interval from 2.5 minutes, 5 minutes, 10 minutes, 30 minutes or 60 minutes.

Through the easy and intuitive web interface, after registering your device on the FindMeSPOT.com/Activate website, it is possible to configure the SPOT X, to synchronize your contacts, to set the predefined messages and to upgrade the software by connecting SPOT X to a PC via the Micro USB cable. The device has an IP67 waterproof rated and is MIL-STD-810G certified.

SPOT X is the ideal device for tracking and communicating in emergency situations or outside the coverage of standard telecommunications networks.

- Dimensions:** 1661x737x239 mm
- Weight:** 198,4 g (with battery)
- Menù:** 6 languages
- Functionality:** SMS and tracking
- Satellite Antenna:** omnidirectional (10 cm)
- Display:** 2.7" backlit
- Battery:** rechargeable Li-polymer
 - › in continuous 10 min. tracking mode: up to 240 hours
- Power supply:** 5 V DC
- Memory:** 70 numbers on the device
- Positioning system:** GPS
- Connectors:** Micro USB
- Environmental protection rating:** IP67, MIL-STD-810G
- Operating temperature:** from -20 °C to +60 °C
- Operating altitude:** from -100 m to 6,500 m
