## Thuraya IP+

**HUGHES**

Thuraya IP+ is the compact and light satellite broadband terminal, featuring optimal performances and ruggedness. It is Plug&Play, therefore it does not need any installation software: just connect it to your device using Wi-Fi or the RJ45 Ethernet port. It provides a reliable wireless connectivity with WPA and WPA2 encryption.

Thuraya IP+ has a watchdog function to use the modem even in M2M applications. You can also remotely modify the modem configuration or simply monitor it without having the device close at hand.

This modem is ideal for the users who need a high performance broadband connectivity up to 444 kbps at all times, without having to install an external antenna.

**Dimensions:** 216x216x45 mm

**Weight:** 1.4 kg

**Functionality:** data

**Satellite Antenna:** directional built-in

**Display:** white and black

**Data transmission:**

- › Standard IP: 404/444 kbps (upload/download)
- › Streaming: up to 384/384 kbps (upload/download)

**Battery:** Li-ion

- › continuous transmission: up to 1 hour
- › stand-by: up to 30 hours

**Power supply:** 19 V DC

**Positioning system:** GPS

**Connectivity:** Wi-Fi, Ethernet

**Connectors:** SIM Card, power supply DC, RJ45, external antenna, compass

**Environmental protection rating:** IP55

**Operating temperature:**

- › external power supply: from -25 °C to +55 °C
- › battery powered: from 0 °C to +50 °C

**Humidity:** 95% RH at +40 °C

**Compatibility:** device with Wi-Fi/Ethernet, Windows operating systems for software upgrade

## PACKAGE

- › IP+
- › Battery
- › Ethernet cable
- › 220 V travel charger with international plugs
- › User Manual
